

# Training on Humanitarian Logistics Management (HLM)

Provided by HELP Logistics – A Program of the Kühne Foundation

## OVERVIEW

### Target group

Practitioners from organizations operating in the development and emergency context

### Program Duration

3 plus 2 optional days

### Method

- Interactive lectures
- Case studies
- Group work
- Role plays

### Certificate

Kühne Foundation  
Training Certificate

## OBJECTIVE

The HLM is a modular training program consisting of 9 core modules and 9 optional modules which are compiled and delivered based on the specific needs of the partner organization.

The content of the modules is on operational and tactical level. It equips practitioners working in the development and emergency context with theoretical knowledge on relevant logistics and support functions.
